I Scott E. Kocsis solemnly swear under oath the statement I about to give to you is true to my knowledge (an accurate, I had a business) year 2001 to late 2005 I lost the (business) due to pain killers opioids. I had Knee Surgery - in 1998 left knee; Knee Surgery again in 1999. Keith pulled in 2000 - 2001 Keith again after that I got hooked on the pain killers they were giving me. I could function and operate the business Kocsis Constructions. I had very bad mood swing and couldn't do anything without the pills. As we move forward I got hooked on Crack Cocaine any drug that made me feel good. Meanwhile 15 men employed left. My business failed drugs were more important, my partner also died from his addiction. I ended up in Willard Shack also went to Rehab before Willard didn't help. On probation related that hurt my family over & over nothing worked. I'm separated from my wife at this time. Total loss in assets & property is 3.5 million dollars. This is a permanent disability I never had and suffer from. I would really like a chance to speak to this problems
